

GENOSYS MICROBIOME ENERGY INFUSING MIST

MICROBIOME ENERGY INFUSING MIST

Comparison

	Before	After
Design		
Texture	Water Type (Solubilization)	Oil in Water (Emulsion)
Function	Moisturizing	Moisturizing, Nourishing, Providing skin natural glow
Key Ingredients	Centella Asiatica Extract, Ethyl Ascorbyl Ether, Aloe Barbadensis Leaf Extract, Nelumbo Nucifera Flower Extract, Prunus Mume Fruit Extract, Phtolex SC, Lactobacillus/Pumpkin Ferment Extract, Beta-Glucan	CUREBIOME(Lactobacillus Ferment), Hyaluronic Acid Complex, FENSEBIOME™ (Acetyl Heptapeptide-4), Butyrospermum Parkii (Shea) Butter, Simmondsia Chinensis (Jojoba) Seed Oil, Butyrospermum Parkii (Shea) Butter, Tocopherol, Centella Asiatica Extract

MICROBIOME ENERGY INFUSING MIST

Concept

GENOSYS MICROBIOME ENERGY INFUSING MIST revitalizes skin and enhances skin's natural strength with unique blend of pre/probiotics that corrects the balance of skin microbiome and hyaluronic acid complex that replenishes the skin's moisture barrier.

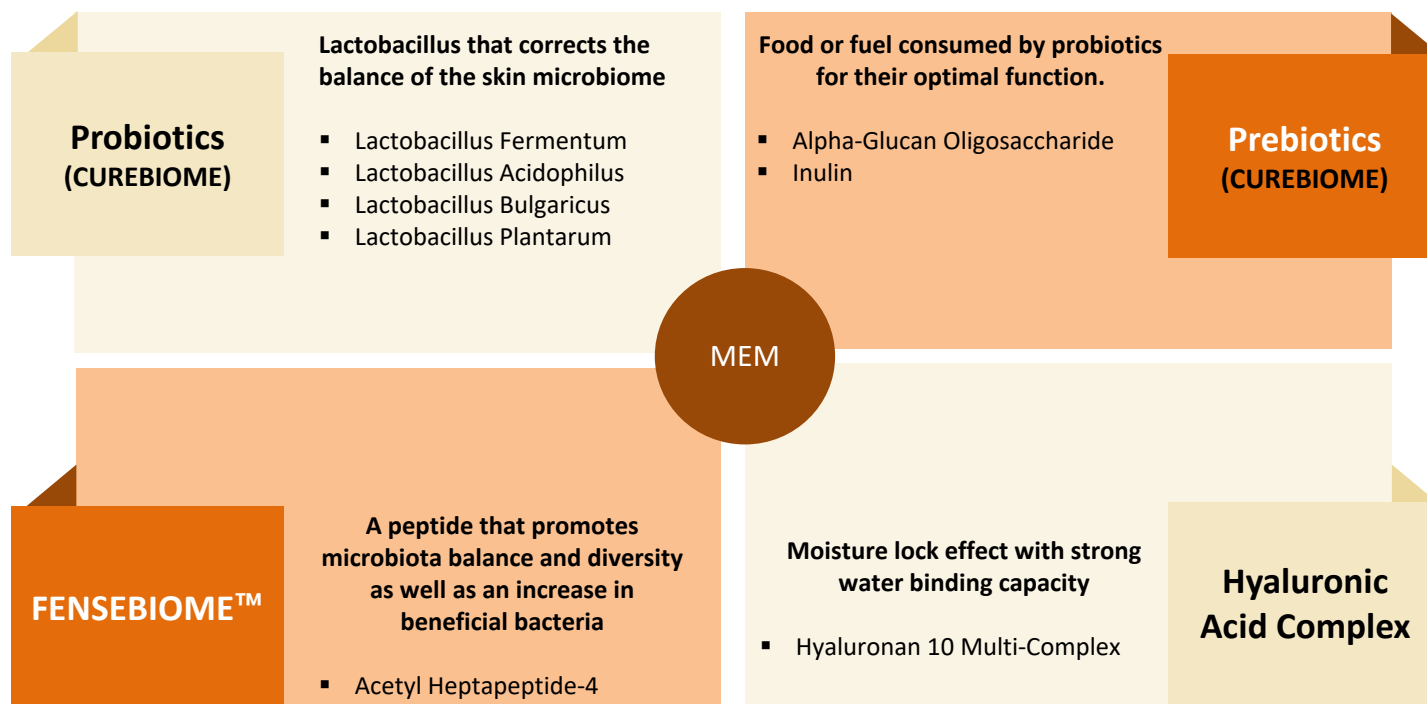

[NET WT. 80ml]

- Powerful moisturizing effect
- Strengthens and protects skin barrier
- Soothes skin and restores skin condition
- Gives skin natural glow and radiance

MICROBIOME ENERGY INFUSING MIST

Mechanism

Stable, balanced skin microbiome & healthy skin barrier

MICROBIOME ENERGY INFUSING MIST

How to use

Shake well before use, then spray over the face with eyes closed at a distance of 10-20cm throughout the day. It can be sprayed over make-up.

* If you want to give your complexion a dewy-looking glow, spray the product right before makeup. Then, give a few moments to absorb into the skin.

Recommended when

- ✓ When you need frequent skin nutrition and hydration
- ✓ When the skin water/oil balance is broken
- ✓ When dry, cracked or flaky skin needs soothing
- ✓ When the skin becomes sensitive or dry due to external stimuli such as weather, season, or environment
- ✓ When you want glow and luminous skin expression before make-up
- ✓ When you want to refresh make-up, moisturize and add glow after make-up
- ✓ When you want to easily maintain skin health and manage skin barrier

GENOSYS MICROBIOME ENERGY INFUSING MIST

KEY INGREDIENTS

MICROBIOME ENERGY INFUSING MIST

Key Ingredients

Hyaluronic Acid Complex
Glycerin

Moisturizing

Lactobacillus Ferment Complex (Probiotics)
Alpha-Glucan Oligosaccharide (Prebiotics)
Inulin (Prebiotics)
Acetyl Heptapeptide-4
Tocopherol (Vitamin E)
Jojoba Seed Oil
Shea Butter

Strengthening
Skin Barrier

Centella Asiatica Extract
Bambusa Vulgaris Leaf Extract

Soothing

MICROBIOME ENERGY INFUSING MIST

CUREBIOME

[Skin Microbiome]

Microscopic organisms that live on and in our skin's various layers that strengthen skin immunity and protect skin from the external environment by supporting the barrier function of the skin and ensuring skin homeostasis.

→ When the skin microbiome becomes damaged due to environmental factors, unhealthy lifestyle, and aging, various skin problems such as acne and psoriasis can occur.

[CUREBIOME]

It helps to balance the skin microbiome with unique blends of four types of lactobacillus ferments (probiotics) that help the growth of beneficial microorganisms in the skin and two types of prebiotics that help the growth of probiotics.

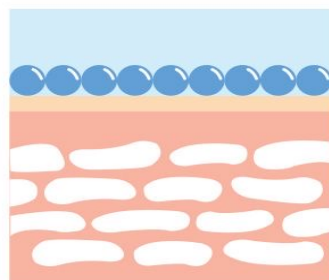

MICROBIOME ENERGY INFUSING MIST

Hyaluronan 10 Multi-Complex

- Natural moisturizing factor (NMF) with strong moisture binding capacity
- 10 types of hyaluronic acid with various molecular weights (low molecular weight, medium molecular weight, high molecular weight) provide multi-depth hydration to skin.
- INCI: Sodium Hyaluronate, Hyaluronic Acid, Sodium Hyaluronate Crosspolymer, Potassium Hyaluronate, Hydroxypropyltrimonium Hyaluronate, Hydrolyzed Hyaluronic Acid, Sodium Acetylated Hyaluronate

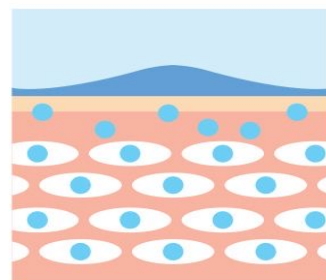

**High Molecular Weight
Hyaluronic Acid**

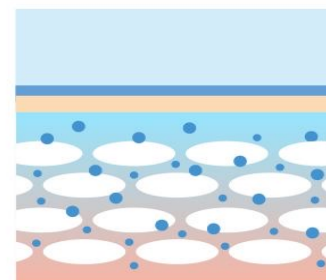

Powerful moisture binding capacity / Formation of moisture barrier on the skin surface

**Middle Molecular Weight
Hyaluronic Acid**

Prevents evaporation of moisture from the skin surface

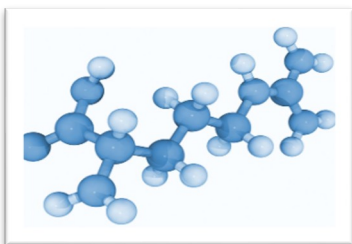

**Low Molecular Weight
Hyaluronic Acid**

Highest skin penetration
Hydration deep in the skin

MICROBIOME ENERGY INFUSING MIST

FENSEBIOME™

- Acetyl Heptapeptide-4
- It helps to promote microbiota balance and diversity as well as an increase in beneficial bacteria. (Probiotic-like effect)
- It helps to reinforce skin barrier function.
- It prevents dehydration.

Butyrospermum Parkii (Shea) Butter

- Natural Moisturizing Factor (NMF)
- It retains moisture and lessens the loss of water by forming a barrier on the skin surface.
- It keeps the intercellular structure of the epidermis intact, and effectively keeps bacteria out, thus facilitating and preventing skin irritation.
- It promotes strong antioxidant activity with vitamin A and E.

MICROBIOME ENERGY INFUSING MIST

Simmondsia Chinensis (Jojoba) Seed Oil

- As a humectant, it seals skin with a protective barrier to keep it from losing moisture.
- As it is very similar to human sebum, it helps regulate sebum production.
- With anti-inflammatory and healing properties, it relieves skin inflammation and speeds-up the wound healing.
- It helps skin fight oxidative stress with Vitamin A and E.

Centella Asiatica Extract

- Rich in triterpenes (asiatic acid, madecassic acid, asiaticoside, etc.), it shows powerful antimicrobial and anti-inflammatory effects.
- It has excellent wound healing and soothing properties.
- It helps increase synthesis of collagen and enhances the skin barrier function.

Thank You
